*City of Reno bills for sewer by parcel number. O'Brien & old Stead are billed together because they are on the same parcel (share an APN). TMWA metering for each site is separate, so it is possible to break their billing apart.

**The property includes a ground-mounted solar array (capacity:125 kW) that feeds solar power to Stead ES. In fiscal year 2025, the solar energy system provided 54.6% of the electricity consumed at the site. The solar offsets about \$1,300 a month in electricity spend.

Currently, WM trash services at old Stead have reduced from 5 to 2 times per week with recycle still at once a week.
